REVENUE SHARING PAYMENTS

Notice of Allocations

DEPARTMENT OF THE TREASURY

Office of the Secretary

REVENUE SHARING PAYMENTS

Notice of Allocations

The Department of the Treasury is publishing herewith the roster of recipient governments of the first revenue sharing payments and the amounts received by each. These represent entitlement payments made for the first entitlement period (January 1, 1972, through June 30, 1972) under title I of the State and Local Fiscal Assistance Act of 1972 (Public Law 92-512), to State governments, county governments, municipalities, townships, and other units of general government.

Payments for this entitlement period will be made to Indian tribes and Alaskan native villages, but are being delayed because time has not permitted the gathering of sufficiently accurate information and the determination of entitlements. Additionally, in some cases payments to recipient governments which experienced a boundary change or reorganization prior to January 1, 1972, will not reflect such reorganization at this time. Recipient governments who have failed to respond to address verification notices are not included in this initial payment of entitlement funds.

Funds available for the first entitlement period total $2.65 billion. Of this amount, 1 percent has been withheld for the purpose of making payments to those recipient governments entitled thereto who are not receiving payments at this time, and for the purpose of making any adjustments which may be necessary.

The data upon which these allocations have been calculated includes tax data collected this year by the Bureau of the Census reflecting fiscal year 1971 taxes. Estimates prepared earlier this year reflected fiscal years 1965 and 1966 tax data. Therefore, to the extent that relative shifts in taxing patterns have taken place during that period, some recipients will receive relatively more, others relatively less than the amounts shown in the earlier estimates.

Because of the necessity of reviewing and verifying to the greatest degree possible the data upon which entitlements are based, which in some cases includes estimates, that data is not available at the present time. When the Department is satisfied that the best data available has been used, that any estimates made are as accurate as possible, and that necessary adjustments have been made, data upon which the computation of entitlement payments is based will be published.

For example, Treasury has determined that the per capita income data to be used for places under 500 in population will be the per capita income of the county area in which such places are located. In the case of those who did not respond to the Census Tax Survey, Census has prepared estimates of taxes.

Publication of the roster of recipient governments and the amounts of their initial entitlement payments shall not be deemed to constitute a final determination of allocation and entitlement. The books on this entitlement period will remain open until the Department is satisfied that the data used is as current and error free as possible. As stated in the regulations, the date upon which final determinations of allocations and entitlements will be made will be determined at some future time, and will be published in the FEDERAL REGISTER.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

DECEMBER 8, 1972.
